

Esho Golpo Shuni

A Planet Solace Initiative for Children

Storytelling is an effective way to teach kids about the world and to help them feel more connected to it.

Why Storytelling?

1. To encourage children's imagination and creativity
2. To improve vocabulary
3. To enhance communication skills
4. To develop listening skills
5. To learn grammar and syntax in the most natural way

Help your child to develop their communication skills and expression of their thoughts through the magic of storytelling.

Let children discover a sense of well-being with a storytelling program in this age of digital screens and gadgets.

**Open for
Children from
age 4 to 13**
